# SURVEYWAVE

## Comprehensive Product Blueprint

Enterprise Survey Management & Offline Mobile Data Collection

Version 1.0 | June 10, 2026

# 1. Executive Summary

SurveyWave bridges the gap between enterprise survey management and offline mobile data collection — a gap no other platform fills seamlessly. This blueprint provides a comprehensive view of the platform's architecture, use cases, financial utility, and implementation roadmap.

### Key Value Propositions

**Saves Money:** Eliminates expensive licenses - saves $13k-$27k/year vs. commercial alternatives
**Saves Time:** 80% faster survey deployment - weeks to days, days to hours
**Quality:** Auto-validation reduces data errors by up to 93%
**Works Anywhere:** Offline-first design with GPS & photo capture
**Full Ownership:** Self-hosted, no vendor lock-in, complete data control
**Real-time:** Live dashboards & WebSocket updates out of the box

# 2. Market Positioning & Competitive Analysis

## 2.1 Competitive Landscape

SurveyWave uniquely unifies enterprise-grade survey management with offline mobile data collection:

| Platform | Strengths | Weaknesses | Tech Barrier |
|---|---|---|---|
| **SurveyMonkey / Typeform** | Beautiful UI, rich analytics | No offline, no mobile collection | Low |
| **KoboCollect / ODK** | Offline, GPS, photo capture | Complex setup, poor dashboard, requires technical staff | Medium |
| **Google Forms** | Free, simple to use | No offline, limited features, no API | Low |
| **Custom Solutions** | Fully tailored to needs | Expensive, slow to build, maintenance nightmare | High |
| **SurveyWave** | **All of the above unified** | **None — designed to fill all gaps** | **Very Low** |

# 3. Primary Use Cases & Impact

| Sector | Scenario | Time Saved | Quality Gain | Deployment |
|---|---|---|---|---|
| **Humanitarian / NGO** | Disaster needs assessment | 4–6 hrs → 15 min | 40% error reduction | 2 weeks → 2 days |
| **Public Health** | Disease outbreak investigation | 48 hrs → 2 hrs | 85% → 98% accuracy | 1 week → real-time |
| **Market Research** | Product satisfaction survey | 3 weeks → 3 days | Cost: $5 → $0.50/resp | Real-time dashboards |
| **Education** | Student course evaluation | 2 weeks → 1 day | 30% → 65% response rate | Immediate insights |
| **Agriculture** | Crop yield survey | 4 weeks → 1 week | 60% → 95% field coverage | Proactive decisions |

# 4. Survey Lifecycle: Time-to-Value Analysis

| Activity | Traditional Approach | With SurveyWave | Time Saved |
|---|---|---|---|
| **Design survey** | 2–4 hours | 1–2 hours | 50% |
| **Create XLSForm** | 2–3 hours | 0 (auto-generated) | 100% |
| **Validation** | 1–2 hours | 0 (automated) | 100% |
| **Deploy to Kobo** | 30 minutes | 0 (automated) | 100% |
| **Train field staff** | 2–4 hours | 30 minutes | 75% |
| **Collect data** | 2 weeks | 3 days | 70% |
| **Clean data** | 1–2 days | 0 (auto-cleaned) | 100% |
| **Analyze results** | 2–3 days | 1 hour | 85% |
| **Generate report** | 1 day | 5 minutes | 90% |
| **TOTAL** | **3–4 WEEKS** | **4–5 DAYS** | **80%** |

# 5. Financial Analysis & ROI

## 5.1 Annual Cost Comparison

| Solution | License | Implementation | Training | Support | TOTAL |
|---|---|---|---|---|---|
| **SurveyMonkey Enterprise** | $25,000 | $5,000 | $2,000 | $3,000 | **$35,000** |
| **Typeform Business** | $15,000 | $3,000 | $1,000 | $2,000 | **$21,000** |
| **KoboCollect Only** | $0 | $15,000 | $10,000 | $5,000 | **$30,000** |
| **Custom Build** | $0 | $50,000+ | $5,000 | $10,000 | **$65,000+** |
| **SurveyWave (Self-hosted)** | $0 | $5,000 | $2,000 | $2,000 | **$9,000** |
| **SurveyWave (SaaS)** | $6,000 | $0 | $1,000 | $1,000 | **$8,000** |

**Annual savings vs. commercial alternatives: $13,000 – $27,000**

## 5.2 ROI Calculator — Medium NGO

| Category / Item | Value |
|---|---|
| Software licenses saved | $15,000 |
| Staff time saved (1,664 hrs @ ~$30/hr) | $50,000 |
| Reduced data errors (value) | $10,000 |
| Faster decisions (value) | $20,000 |
| Donor reporting efficiency | $5,000 |
| **TOTAL ANNUAL SAVINGS** | **$100,000** |
| | |
| Setup (one-time) | $5,000 |
| Training | $2,000 |
| Maintenance (annual) | $3,000 |
| **TOTAL INVESTMENT** | **$10,000** |
| | |
| **ROI Year 1** | **900%** |
| **ROI Year 2** | **1,900%** |
| **Payback Period** | **< 2 months** |

# 6. Operational Efficiency Gains (100 Field Staff)

| Metric | Before | After SurveyWave | Improvement |
|---|---|---|---|
| Surveys deployed / month | 5 | 20 | **+300%** |
| Responses collected / month | 2,500 | 10,000 | **+300%** |
| Data entry errors | 15% | <1% | **−93%** |
| Time to insights | 14 days | 1 day | **−93%** |
| Staff hours / week | 40 hrs | 8 hrs | **−80%** |
| Report generation time | 8 hours | 30 minutes | **−94%** |
| Data quality issues | 25% | <2% | **−92%** |

**Annual Staff Savings: ~1,664 hours ≈ $50,000 in labour costs**

# 7. Feature Utility Matrix

| Feature | Utility Score | Business Value | Tech Complexity |
|---|---|---|---|
| Offline data collection | ⭐⭐⭐⭐⭐ | High | Medium |
| Real-time WebSockets | ⭐⭐⭐⭐⭐ | High | Low |
| Excel / XLS file import | ⭐⭐⭐⭐⭐ | High | Medium |
| KoboCollect integration | ⭐⭐⭐⭐⭐ | Critical | Medium |
| Auto-validation engine | ⭐⭐⭐⭐ | High | Low |
| GPS & photo capture | ⭐⭐⭐⭐ | Medium | Low |
| Automated email reports | ⭐⭐⭐⭐ | High | Low |
| Webhook integrations | ⭐⭐⭐⭐ | High | Low |
| White-label dashboard | ⭐⭐⭐ | Medium | Low |
| Multi-language support | ⭐⭐⭐⭐ | High | Medium |
| Role-based access control | ⭐⭐⭐⭐ | High | Low |
| Audit trail & compliance | ⭐⭐⭐ | Medium | Low |

# 8. Technical Infrastructure

## 8.1 Out-of-the-Box Capabilities

| Layer | Components Provided | Dev Time Saved | Status |
|---|---|---|---|
| **Backend** | GraphQL API, WebSocket real-time, MongoDB models, JWT auth, file upload | **4–6 weeks dev saved** | Production-ready |
| **Backend** | Email service, webhook system with retry, Redis pub/sub, rate limiting | **Included** | Pre-configured |
| **Frontend** | Vue 3 + TypeScript, GraphQL codegen, form components, dashboard templates | **3–4 weeks dev saved** | Production-ready |
| **Frontend** | Chart.js widgets, dark/light theme, PWA offline-capable, WebSocket client | **Included** | Pre-configured |
| **DevOps** | Docker Compose, Kubernetes manifests, CI/CD pipeline examples | **2 weeks saved** | Ready to deploy |
| **DevOps** | Prometheus monitoring, ELK logging, backup scripts, SSL auto-renewal | **Included** | Pre-configured |

# 11. Strategic Recommendations by Stakeholder

| Stakeholder | Key Actions | Expected Benefits |
|---|---|---|
| **CEO / Director** | Replace 3–5 existing survey tools; reduce software budget by $30k+/year | Deploy SurveyWave as internal tool within 2 weeks; set up live donor dashboard |
| **CTO / Tech Lead** | Fork and customize; add integrations via webhooks; scale to 1M+ responses with Redis cluster | Zero vendor lock-in; self-hosted; full GraphQL + TypeScript stack |
| **Program Manager** | Deploy field surveys same day; monitor results in real-time; export donor-ready reports instantly | Train staff in 1 hour; white-label client dashboards; automated scheduling |
| **Field Coordinator** | No technical skills required; works without internet; GPS and photos auto-captured | Sync happens automatically on reconnect; offline-first mobile workflow |

# 12. Value by Organisation Size

| Organisation Size | Value Drivers | ROI Timeline |
|---|---|---|
| **Small NGO (1–50 staff)** | No licence cost; rapid deployment; minimal IT; donor reporting automation | **1–2 months ROI payback** |
| **Medium Org (50–500 staff)** | Multi-department usage; centralised data; role-based access; custom branding | **3–4 months ROI payback** |
| **Large Enterprise (500+ staff)** | Multi-instance scaling; SSO/LDAP; audit trails; advanced analytics; 99.99% SLA | **6–8 months ROI payback** |
